

There have been a number of enquiries about how to set up a local scheme and things like security and DBS checking protocols. In response, the following Webinar has been commissioned.

Local Community COVID response Webinar – Friday 3rd April 4.30pm

This session is aimed at:

- Those delivering a localised response and may be standalone or linked into a Local Council or Charity.
- Local Councils who may want to set up or support a response locally

The session will give some clarity on:

- What roles you should DBS check – there is updated guidance on this
- Sharing good practice
- CVS will share some overarching support they can provide if needed around contactless payment for shopping and Proving ID
