| 05/05/21 | 26/05/21 | 21/01478/FUL | Installation of 8 new raw material storage silos, relocate and upgrade the molasses storage tanks and erection of a steel framed building extension on the south west side of the existing mill Oakes Millers Ltd, Station Mills, Hampton, Cheshire SY14 8JQ. The proposed 8 new raw material vertical storage silos/bins are 12m tall and are connected by overhead conveyors and walkways to allow safe maintenance access. The new silos are the same height as the current raw material bin storage building and will be connected with conveyors and elevators to move products automatically into the mill. These new silos/bins will be situated where we currently have our 2 molasses tanks, so as part of this project we will move these to a new tank | Station Mills<br>Hampton Heath<br>Industrial Estate<br>Edge Malpas<br>SY14 8JQ | Email 10/05/21<br>No observations                                                                                                       | PENDING |

|--|--|--|--|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|  |  |  |  |  | <p>bathroom, kitchen, home office and workshop.</p> <p>5. Does the reworked outbuilding require a change of use for commercial purposes?</p> <p>6. The Council would wish to ensure that the surface water drainage is effective.</p> <p>7. The applicant has been granted permission in 2019 for a garden room single storey extension to the farmhouse. This is yet to be built. The Council would question what it's impact would be on the current application.</p> <p>8. Surface Water Drainage:- The Council note the gravel approach to the garage is stipulated on the drawing, but the new impermeable area of the garage itself would need careful consideration of its drainage solution in this very prone area for flooding.</p> <p>9. The Council commented as to whether has the garage roof has drainage been designed to accommodate negating surface water exceedance upstream of the pond (e.g. a green roof or rainwater harvesting facility?)</p> |  |

## NO MANS HEATH AND DISTRICT PARISH COUNCIL - PLANNING APPLICATIONS 2021

|          |          |              |                                                                                                                                                     |                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |         |
|----------|----------|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
|          |          |              |                                                                                                                                                     |                                                                       | <p>6. The Council would wish to ensure that the surface water drainage is effective.</p> <p>7. The applicant has been granted permission in 2019 for a garden room single storey extension to the farmhouse. This is yet to be built. The Council would question what it's impact would be on the current application.</p> <p>8. Surface Water Drainage:- The Council note the gravel approach to the garage is stipulated on the drawing, but the new impermeable area of the garage itself would need careful consideration of its drainage solution in this very prone area for flooding.</p> <p>9. The Council commented as to whether has the garage roof has drainage been designed to accommodate negating surface water exceedance upstream of the pond (e.g. a green roof or rainwater harvesting facility?)</p> |         |
| 28/07/21 | 18/08/21 | 21/01478/FUL | Installation of 8 new raw material storage silos, relocate and upgrade the molasses storage tanks and erection of a steel framed building extension | Station Mills<br>Hampton Heath<br>Industrial Estate<br>Edge<br>Malpas | Email 18.08.21<br>The Parish Council note only the statement of improved environmental element with the new silos in bunds, however the associated details haven't been                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | PENDING |

## NO MANS HEATH AND DISTRICT PARISH COUNCIL - PLANNING APPLICATIONS 2021

|          |          |              |                                             |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |         |
